Re: Review of Depreciation Expense in 1997 Annual Report File DWCCA-2483-JPL

Dear Ms. Wawrzaszek:

The \$154,805 balance in Account 312, Collecting and Impounding Reservoirs, on page W-9, line 6, column (g), is apparently the cost of the 65,000-gallon elevated steel tank constructed in 1993 as reported on page W-13, column (b), lines 1-10. The cost of a water tower, which is part of the distribution system, should be recorded in Account 342, Distribution Reservoirs and Standpipes. During 1998 please reclassify the \$154,805 balance in Account 312 to Account 342.

Paragraph No. 1 of our letter dated October 14, 1996, with regard to analytical review of the 1995 annual report, authorized a revised schedule of depreciation rates which was enclosed with that letter, to be effective on January 1, 1997. Based upon depreciation accruals on page F-7, lines 4-9, these revised rates were apparently not used during 1997. Enclosed with this letter is a copy of the new depreciation rates. The reclassification of the water tower referred to above is reflected in these rates. Please note that these depreciation rates should be used beginning in 1998. If you have any questions, please feel free to contact me at (608) 266-1282.

1997 Analytical Review DWCCA-2483-PJL

Dear Ms. Wawrzaszek:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1997 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. Please provide a copy of the utility's meter testing plan or otherwise explain your testing schedule.
2. Please explain how both the mains reported as added during the year in column (e) of the Water Mains schedule on page W-14 and the service reported as added during the year in column (d) of the Water Services schedule on page W-15 were financed.

You did a good job completing your annual report. We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

1997 Analytical Review DWCCA-2483-PJL

Dear Ms. Wawrzaszek:

Thank you for your response to our letter of July 10, 1998 concerning the analytical review of your annual report. Your answer has been helpful in providing information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. However, we feel the following item needs further clarification before we can complete this analytical review. The item is numbered from our previous letter.

2. While you indicate in your response that the installation of a new hydrant was paid for by the village of Hatley, we noted that there are no dollars reported in Account 200, Capital Paid In By Municipality. Please reclassify those dollars to Account 200 in your 1998 report and follow this procedure in the future.

If you have any questions, please feel free to contact me at (608) 267-9198.

Sincerely,

Peter J. Leege
